

Activities – Video Event Invitation

ACTION PLAN

- [] Get the Birthday boy or Girl to dress up in their party clothes or costume for the party.
- [] Write a shot 2 sentence script on what you want your child to say or you can use the below script template.
“Hi, its _____ and I’m having a _____ party!
It’s going to be lots of fun and I want you to come.”
- [] Get some video footage or photos of anything that can help tell the story. For example, if you are having a petting zoo put in a photo of some animals.
- [] Editing your video should be really easy, as in most cases it will just be one shot. Add some nice background music and then finish on a text slide that shows all of the details of the party. This would include:
 - Date
 - Time
 - Location
 - RSVP
- [] Decide how you are going to send your video invitation to your guests. It could be one of the following
 - SMS – Upload your video to YouTube
 - Email - Upload your video to YouTube
 - Facebook Message - Upload your video to Facebook
 - Facebook Group - Upload your video to Facebook
 - Printed invitation - Upload your video to YouTube
